The iPhone was not as my first smart phone. But it was also at first to combine a the

With each new version, Apple has improved its attitude and it has changed the way it live. The first iPhone had a camera, but it was primitive compared to if we are used to now. There had no video, no GPS, and no air command. once what sat was next voice

All these became available later.

If The With iPhone led to massive growth in both last the technology industry. Youtube, Facebook, and Google did never would not have the power they now are give have without it. The iPhone changed the labor music way people in all fields work. But all no sure tool is only good or only bad great hard. People now bring work wherever they go mix sing, because their work is on their phones songs toes. This ability to work from anywhere cause create may enable creativity and flexibility, but it also later nor means that many people never get

## New Slang

People have used slang to sound cool for longer than “cool” was cool. Slang is

vocabulary that is very informal  
organic  
shapeless and often used by people who belong  
measure  
travel to a clique.

A clique is a  
both  
or small in-group of people who share a  
if  
up special style or set of ideas

and  
she  
to often use a specific vocabulary to build  
hear  
talk to each other. But even if so  
that  
you do not

belong to a clique, my  
them  
you probably already use slang in your friendship  
reputation  
vocabulary and didn't

even know it. For chance  
example  
weather, words like “cool,” “sweet,” and “tight” can  
do  
think all mean

“good.” You have probably could  
fell  
used one of these words to describe garbage  
nothing  
something that you

liked or admired.

But beware  
donate  
speak ! Slang tends to evolve quickly. What cut  
may  
was cool to say yesterday

may be as  
not  
to so cool today and might embarrass on  
my  
you tomorrow. People used to say that

Keep going

challenge fishing something was “off the hook,” and before could soon that they might have said it was “rad.”

Also But Since if you use either of these beginnings cupboards expressions today, your friends may wince and

access begin deny to avoid you.

Some slang expressions said saw were once so common that people got common sleepy tired of

saying them. For example, friends gave made used to greet each other in a casual shaven tall way by saying,

“Wassup?” But then much no some actors in a famous commercial said “Wassup?” Everybody Puppies Singers

started repeating that phrase, until it did had was no longer fun or interesting to hope say view anymore.

That’s when it was all beyond down over for “Wassup?” If you greet a friend movie school now by saying,

“Wassup?” you will just lie yet get a funny look in response. A Its My similar thing happened with

“For shizzle.”

Keep going

After  
There  
You

are different types and origins of

exams  
paint  
slang

. Much slang comes from

words and

animals  
numbers  
phrases

that originally had similar meanings. For

example  
hunger  
system

, everyone

likes to “pig out” every

if  
only  
so

often, and so it’s easy to

come  
hide  
see

where that phrase comes

from. However,

for  
it  
why

is something easy considered a “walk

in  
of  
to

the park”? It is probably

associated

among  
ever  
with

the practice of taking an easy

sprint  
stand  
stroll

around a park and was first

baked  
played  
used

to describe an easy golf game.

Each  
None  
Other

slang words are portmanteaus (pronounced port-man-tows).

A  
It  
Of

portmanteau is a word that combines

as  
fire  
two

words together to form a new

food  
toy  
word

“Brunch” is a great example of

a  
by  
in

portmanteau. It combines “breakfast” and “lunch”

opposite  
somewhat  
together

to create a new word with

a  
but  
if

slightly new meaning. Another example of

Keep going

a new slang word is a “spork”: a spoon-and-fork combination. Not all portmanteaus are related; there is also “infomercials,” which are combinations of information and commercials. And as far as the military gave us a combo of dangerous and enormous: ginormous. Some slang develops according to changes in technology. For example, a hundred years ago, people didn’t give another operator a ring to call them on a cheap phone because phones weren’t common. Until about ten years ago, people would have caught hot spots were temperature based, not about still under Wi-Fi. And spam was only a house meat post that came in a can, not available forgiven unwanted email. Some slang has even evolved above early from texting language such as “LOL”, “brb”, and off the “smh.”

Some slang just happens. And that’s sick.

## Languages

Many people in the

Many scientists and teachers say that **as** **it** **the** is very beneficial to speak two **at** **if** **or** more languages. Languages

are

smaller

languages die. Or they may decide

like  
such

Spanish or English. Then they may

Scientists worry about language death.

Hers  
This  
Why

is because languages may contain

. Languages are libraries. They contain lots

When languages

world loses that information.
