One Spooky Night

It was late summer, and the boys were camping overnight. It was their first time camping on their own. They set up their tent in a field near a stream fed by a small waterfall. At the edge of the field, there was a wall of trees and miles of dense woods.

The woods were full of wild plants that deer liked. At night, deer would gather for a sip of water and a meal. The boys didn't know that almost . What they did know was that black bears were sometimes spotted in the area . The oldest boy built a small car . It was just big enough to keep
