## A Memory Palace

In ancient Greece, there were people who made speeches for a living. These people

were known as speechmakers **or such the** orators. In those days, orators did **any far not** use written

notes. They just had **for so to** remember all the facts, numbers, and **courts names sounds** they were going

Some orators discovered strong techniques for **allowing forgetting memorising** information. One of

the best of **mine these what** techniques was to build a memory **gold palace speech** for storing important facts,

numbers, names, **be or too** objects.

Here is how you do **as it off**. You imagine a big building, like **a by is** mansion or a

palace. In your **achievement examination imagination** you walk through all of the **papers rooms sinks** and you clearly picture

how everything **in per up** each room looks. Then you do **it not with** again, but this time you place

about  
below  
inside

each room one thing you want

but  
no  
to

remember.

For example, in a study

her  
they  
you

might place on the desk a

many  
small  
young

piece of paper

on which you've

destroyed  
eaten  
written

a series of numbers. You rehearse

listing  
saying

palace and looking at

but  
half  
the

items with the things you want

and  
my  
to

remember, including

the paper with its

flowers

paints

. Then during the moment in your

phone  
speech  
word

when you need

to recall the

colours  
numbers  
tunes

, you imagine walking into your memory

at

due  
on  
to

the desk. You should then

be

able  
nice  
worth

to recite the numbers exactly as

hers  
such  
you

Sometimes it helps to

Then you could make the next  
plus  
with room in your palace a room across  
how  
where you have

had a lot of fun  
meals  
rain at some point in your life. For  
Over  
What example, you could envision the

living bed

room of a cabin by a lake much

where you used to go with your family

there a television or a radio? Are few

in a closet

stove ? Is there a fireplace and a flow

By annoying  
building

detail, it  
us  
you can remember many things in a passive
