The Kellogg Brothers

The Kellogg brothers are now famous for their cold breakfast cereal. Most

people have at one time in or so another eaten Kellogg's Corn Flakes or one an in of the

other breakfast cereals that the Kellogg animals brothers settings created. But the two brothers

were from not over always known for being the creators also by of breakfast cereal.

John Kellogg was a doctor magazine singer. He worked at a medical clinic because upon where

people went to get healthy. John's brother logger parakeet Will worked at the clinic, too. Will

drank sat was a businessman, but he helped his brother enemy gorilla make food for the patients.

John bent stood was a respected doctor. Some believe he ate payed was well ahead of his

time, a cute sick true pioneer. He knew smoking was bad for if will you long before other

doctors did. He It So believed that many illnesses started in also some the stomach and the

Keep going 

intestines. He prescribed **boxes** **cures** **shoes** focused on a healthy diet. The **cleaner** **drowsier** **the** **guiltier** body, the less chance for **charity** **illness** **mixture** to start. So, he designed a **high** **round** **tall** fibre diet to help rid the **apple** **body** **pet** of toxins.

At that time in **also** **and** **the** United States, most people tried to **drive** **eat** **sleep** a hot breakfast. They ate eggs, **bacon** **grass** **radio**, and sausages. They ate hot porridge **about** **out** **with**

cream. Sometimes people even drank beer **is** **or** **so** cider with breakfast. The Kellogg brothers **did** **put** **sat** not think that this type of **breakfast** **doughnut** **skating** was good for their patients.

They **climbed** **spoke** **wanted** to create a simple breakfast that **could** **sent** **trusted** be served cold.

One day Will **replied** **stumbled** **tabled** upon the recipe for wheat flakes. **Did** **The** **Was** rumour is he left a batch **at** **of** **till** bread dough sitting out too long. **Not** **So** **The** dough went stale. But

Keep going 

the brothers **didn't** **hadn't** **won't** throw it out. They put it **beyond** **during** **through** the bread rollers anyway.

When the **available** **flattened** **medical** dough turned into flakes, the brothers **marched** **stole** **toasted** them. Then

they served the flakes **be** **to** **well** the patients with fresh cold milk. **Also** **But** **The** new cereal

was a hit, making **and** **the** **with** patients feel healthier and stronger.

So, **any** **for** **the** brothers experimented with other grains. After **darling** **familiar** **several** attempts

they created flakes from white **corn** **plan** **shirt** grains, too. The patients loved the **new** **old** **ugly**

cereal, and it was in great **basket** **demand** **policy** at the clinic.

Soon, Will Kellogg **criticised** **established** **interrupted** a company to sell the cereal **flakes** **papers** **shirts** to the

public. But John refused **is** **on** **to** be part of the business. Why? **Although** **Because** **Simple** Will had

Butterflies and Moths

You seldom see anyone swat at a butterfly. But people often take a swipe

at
from
or

two at a fluttering moth. Why

has
is
sets

it that people seem to love

butterflies
hardships
passengers

as much as they dislike moths?

Moths
Socks
Twigs

are usually considered by people to

aim
be
run

dull, drab pests. But why

is
his
some
that

? They don't bite or sting. They

aren't
don't
hasn't

attack people or pets. And moths

aren't
don't
mustn't

eat clothing, though some moth larvae

do
give
use

. Most adult moths don't

eat at
all
leaf
none

. They can't because they don't have

a
it
my

mouth. And the few moths

that
can
give
make

eat like to feed on nectar.

In
On
To

fact, butterflies and moths are closely

accused
glued
related

. They are so much

alike they
are
may
tend

classified as the same order of

affairs
flowers
insects

by scientists.

Keep going

They both have scales **for so that** cover their bodies and wings. These **checks fabrics scales** are not the same as reptile **scales teeth wings** but are odd hairs that have **accessed evolved hurried** into tiny scale-like structures. Both butterflies **and but some** moths continue to grow and shed **and our these** scales throughout their lifetimes. So, it **is lies wins** a myth that if you touch **a his of** butterfly's wing and the powder rubs **from next off** on your fingers, the butterfly or **bee bird moth** will not be able to fly. **Our That Who** powder is just made up of **as my the** tiny scales.

How do you tell **butterflies ducklings nightcrawlers** and moths apart? Consider these facts:

Even Most Sad moths appear only at night. And **either most that** butterflies fly only during the day. **But In The** there are some moths that are **active fluid honest** during the day. Most moths are **clean poor small** and dull in colour. And most **butterflies nightcrawlers porcupines** are brightly coloured. But

Keep going 

there are **all** **blank** **some** large and colourful moths as well. **And** **May** **Why** some species of

butterflies are quite **burnt** **small** **tight** and dull. But even that detail **asks** **has** **wants** exceptions.

One way to tell moths **and** **but** **on** butterflies apart is to look closely **at** **from** **out** the

antennae. The antennae of a **butterfly** **kangaroo** **spaceship** are usually straight and thick at **ice** **my** **the** tip

while most moths have feathery **antennae** **locations** **neckties** that come to a point.

Butterflies **also** **fine** **that** usually fold their wings straight up **during** **except** **over** their backs, so

that the wings **lead** **read** **touch** each other and align perfectly like **a** **her** **if** single wing. Moths,

by contrast, usually **bake** **hold** **lose** their wings in a tent-like way.

Butterflies **Inspectors** **Milkshakes** grow from larvae which are protected **after** **towards** **within** a hard and

smooth covering called **a** **in** **my** chrysalis, whereas moths make cocoons which

Keep going 

are
have
might

wrapped in a covering of silk.

But
The
Your

fact is that there is no

dull
plural
single

feature that distinguishes all butterflies

from all easy moths. The more that scientists discover and study new species of low

butterflies and moths, the more any strong distinctions between the two become

hazy and uncertain.

Another Ice Cream Headache

Ava was at the kitchen table, reviewing the instructions for her maths homework. She was also spooning mouthfuls of **cold hand ice** cream from a two litre tub of **fudge paper water** ripple. Suddenly, she felt a sudden **ache frown joy** in her temples and a pain **at for with** the centre of her forehead. She **put ran saw** the spoon down. She knew what **ate had was** happening to her, and she knew **a it she** was entirely her fault. Her friends **called knew sipped** it Brain Freeze, though that wasn't **an is that** accurate description because no part of **cold her some** brain was actually freezing.

She closed **her some the** eyes and tried to remember the **computer medical spelling** term her mother had used. Ava's **brain mum power** was a nurse, and she had **explained replaced written** the science behind the sensation. But **much she that** was years ago when Ava was **any much not** younger.

Keep going

The scientific name was just two letters people words, but they were long words. Ava got had made trouble pronouncing them. After several tries, and her its mother had told her, “Don’t worry about near with it, sweetheart. They’re not easy words a for to say. Most people just call it a one to cold-stimulus headache. Personally, I’ve always preferred ‘ice milk whip cream headache.’”

Ava liked that name. Cold Ice Whip cream headache had a friendlier sound for than when “brain freeze”, which sounded like something a her its person really needed to worry about. In Of So course, ice cream wasn’t to blame for or to the only cause. Simply sipping a cold sweet warm drink too fast could produce the easy dry same effect. Same with any frozen treat. A So The few quick bites of a iceblock had was would easily do the trick.

Keep going 

When Ava's **brain** **drink** **mother** explained how these headaches occurred, she
gave **made** **said** everyone had a bundle of nerves **for** **in** **so** their mouth. When those nerves
 chilled **as** **but** **too** fast, the rapid temperature change affected **brains** **paths** **straws** that fed blood
 to the brain. **Hot** **More** **The** chill caused those paths to shrink **and** **or** **into** then expand. The
 brain detected these **changes** **paths** **waves** and confused them with pain.
 Ava **smiled** **took** **yelled** a deep breath and let it **all** **out** **take** slowly. There was no need for
air **her** **it** to worry. An ice cream headache **got** **sat** **was** harmless. And they usually lasted
 no **cold** **more** **time** than thirty seconds. She fit the **ice** **knob** **lid** on the tub of ice cream **and** **she** **yet**
 put it back in the freezer. **He** **It** **She** took a glass from the cupboard **and** **but** **yet** went to the
 sink. Her mother **did** **had** **sat** taught her a very simple cure **and** **for** **like** the relief of an ice

Keep going 

cream cupboard
headache . After a few sips of lukewarm air
sandwich bread , the temperature in
water

Ava's mouth returned from
to normal. Now she could get back by
with in her maths
to

homework. She reminded herself back
each when eating something cold, she should
that

raise
smell smaller bites. It was a good idea not to wolf it down, but to take a little time
take

to actually enjoy it.

Nesting Birds

Late March and April is a good time to look around for nest-building birds.

That's the time of year for birds to lay eggs and raise their young. While many birds build nests, there are some that do not.

Among birds that don't build nests are cowbirds, woodpeckers, and owls. Cowbirds simply lay their eggs in the nests of other birds. Woodpeckers don't build, they drill. The only material they use are the wood chips they burn when they peck holes into trees or utility poles. The wood chips fall inside and become the bed for the eggs. Some owls reuse the empty nests and other large birds found in high trees and cliffs. Screech owls prefer natural cavities or spaces made by other critters, as but like woodpeckers.

While many birds build nests, there are some that do not.

Among birds that don't build nests are cowbirds, woodpeckers, and owls. Cowbirds simply lay their eggs in the nests of other birds. Woodpeckers

don't build, they drill. The only material they use are the wood chips they

burn when they peck holes into trees or utility poles. The wood chips fall

inside and become the bed for the eggs. Some owls reuse the empty nests

and other large birds found in high trees and cliffs. Screech owls prefer

natural cavities or spaces made by other critters, as but like woodpeckers.

Keep going

Most birds that do build **ropes** usually require only a few days **to** do **each** **when**

so. They spend a lot **for** time and energy before they settle **in** and get down **last** **more**

to the business **into** laying eggs and raising their young. **Control** **Instinct** **Pattern** directs each

bird how to build **a** design unique to that species. As **a** result, birds often **for** **to**

use different materials **but** **if** **to** make their nests.

Sparrows prefer to **attempt** **collect** **offend** material close to where they are

nesting **speaking** **taking** . They'll use hay, grasses, fur, hair, **and** **by** **that** other natural materials.

Starlings like to **flee** **rinse** **use** fresh cut leaves pruned from shrubs. **They** **Shrubs** **With** also use

moss, fur, and wool. Blackbirds **and** **just** **open** thrushes add mud to their nests. **Had** **Some** **When**

birds even use spider web silk **as** **even** **to** a kind of glue to keep **lines** **shelves** **things** together.

Keep going 

Birds are great fun to **prefer**
try , and they provide a chorus of **grasses**
watch **sounds** and **thorns**

songs. When the babies are **born**
freed , you'll hear whistles, chirps, hoots, and **timed**

colours
pages . Many people like to try and **fill**
trills **fly** birds that sing the nicest songs
draw

but
so nest near them.
to

One way to **attract**
believe more songbirds is to put out **fencing**
purchase **nesting** materials for
reading

them to use. To **attract**
construct sparrows, put out hay, hair, and **all**
loosen **other** long, thin
that

objects found in nature, **in**
like twigs. To bring starlings around, put **from**
very **near** fresh-
out

cut leaves, moss, and even spare **pieces**
rocks of wool. Other birds may use **fruits**
targets **objects**
poems

made by people, like yarn, string, **space**
thread , paper, and cotton balls. Only use **weather**

deep
icy pieces of yarn or string, or **else**
short **much** birds can easily end up tangled **and**

hurt. Don't put out pet fur a if to your pet has been treated for bags fleas necks. Human hair

might also contain traces for of the products that may be toxic to birds songs yarn, so it's best to

skip that, out too yet.

If you place some of these fish items phones outside, in a hanging plant basket is or you

on top of a bush, the birds parks lakes can collect them as they need all put them. If you time it

right, you'll see try use the items are gone very quickly. And Nor Their if you live in a city,

can't don't won't worry too much about the pigeons. They manage to nest around eight times

a year without any help from anyone.
