Backstrap Weaving

Backstrap weaving is an ancient way of making cloth that has been used for thousands of years all around the world. It requires a wooden loom that be made easily and cheaply. The loom can be rolled up and . Since this type of weaving has been done by village women, who often also responsible for making food raising children, it is important that loom be easy to set up and put aside when necessary.

The weaving technique is simple but it long practice. First, a warp must made by stretching yarn or thread two sticks. The distance between the determines the length of the finished . One of the sticks is tied something solid, perhaps to a tree. other is fastened to the

weaver a strap that goes around her . The strap can be made of

or it can be a leather .

The weaver is then able to the tension of the threads with
movements of her body. She passes over and under the warp threads
a tool called a shuttle. It a time-consuming process to weave fabrics this
way, but the results are and beautiful.

The fabrics woven on looms are an important part of cultural
heritage of the people who them. They are often full of motifs that
refer to the myths religious beliefs of the distant past. Guatemala, for
example, Mayan women often to weave when they are four five years old.
